

NSF-CBMS Regional Research Conference

Arrangements and Mathematical Physics

January 11 - 15, 2002

Louisiana State University, Baton Rouge

Speakers:

Kazuhiko Aomoto
Nagoya University

Eduardo Cattani
University of Massachusetts

Michael Falk
Northern Arizona University

Toshitake Kohno
University of Tokyo

Peter Orlik
University of Wisconsin

Alexander Suci
Northeastern University

Hiroaki Terao
Tokyo Metropolitan University

Alexander Varchenko
University of North Carolina
Principal Lecturer

Sergey Yuzvinsky
University of Oregon

The focus of this conference will be on hyperplanes arrangements, multivariable hypergeometric functions, and their applications in mathematical physics. The Principal Lecturer, Alexander Varchenko, will deliver a series of ten lectures entitled "Arrangements, Hypergeometric Functions, and KZ-Type Equations."

The conference is funded by the National Science Foundation.

Conference organizer: Daniel C. Cohen

Conference e-mail: cbms@math.lsu.edu
